

Vox Populi
18 August 2023

Many parents, friends, fellow students and parishioners have no doubt been hearing the incredible stories our World Youth Day pilgrims experienced recently. Although everyone needed to get back into their routine upon returning, what they saw, heard and were part of is something that will not only remain with them forever but is also a wonderful staging platform for their enhanced spiritual journey.

Many people have asked about the various addresses and homilies of Pope Francis in Lisbon.

The official translations have now been released by the Vatican, and can be found on the [DBB website](#).

Please encourage our students and young adults to talk about their pilgrimage to Italy and Lisbon, in family groups, at school or in your parish. It is part of their continuing journey.

A special thank you to Bishop Anthony, the teachers, priests, seminarians and leaders who cared and encouraged every pilgrim.
